

Checkpoint Testing throughout the SDLC (Software development life cycle)

Feature: Login Page

Test Level: System Testing

Test Type: Functional Testing

Technique Used: Specification-Based Testing (BDD)

Scenario 1: Successful login with correct credentials

Test Case ID:

TC_SYS_LOGIN_01

Test Objective:

To verify the login success message using valid credentials.

Preconditions:

- 1The login page is available and accessible.
2. Valid user credentials exist:
 - Username: testuser
 - Password: testpassword
3. The browser is open and working properly.

Test Data:

- Username: testuser
- Password: testpassword

Test Procedure:

Steps	Action
-------	--------

1	Navigate to the login page
2	Enter "testuser" in the Username field.
3	Enter "testpassword" in the Password field.
4	Click the Login button

Expected Result:

- The system authenticates the user.
- A success message should be displayed

Actual Result:

The system displays: "**Login successful!**"

Comparison:

Expected: Success message displayed.

Actual: Success message displayed.

Test Status:

PASSED

Remarks:

The system allows successful authentication with the specified valid credentials, and a successful login message, "Login successful!", is displayed.

2. Scenario 2: Unsuccessful login with incorrect credentials

Test Case ID:

TC_SYS_LOGIN_02

Test Objective:

To verify the login error message using invalid credentials

Preconditions:

1. The login page is available and accessible.
2. Availability of invalid user credentials:
 - Username: wronguser
 - Password: wrongpassword
3. The browser is open and working properly.

Test Data:

- Username: wronguser
- Password: wrongpassword

Test Procedure:

Steps	Action
1	Navigate to the login page
2	Enter "wronguser" in the Username field.
3	Enter "wrongpassword" in the Password field.
4	Click the Login button

Expected Result:

- The system should display an error message

Actual Result:

- The system displays an error message: "**Invalid username or password!**"

Comparison:

Expected: Error message displayed.

Actual: Error message displayed.

Test Status:

PASSED
